

Act now for
BROADBAND
in Elmswell and Woolpit

Sooner or later broadband internet access WILL be available in Suffolk villages.

WE WANT IT NOW

and to this end have formed an action group to register the necessary level of interest with BT (about 400 to 600 interested parties) for it to become viable for them to upgrade the Elmswell exchange to be capable of delivering broadband (ADSL) services.

**To see how this would benefit your family or business, visit our website
– and then register YOUR interest.**

Broadband Power to the people of Elmswell and Woolpit!

It's time to rally to the cause.

Although ADSL broadband internet is already available in many parts of the country, we are not yet in sight of getting it locally.

However, all it takes is for enough people and businesses connected to the Elmswell exchange (i.e. with telephone numbers commencing 01359 24) to show their interest in ordering broadband – and with your help we can make it happen here!

Broadband can really make a difference to people living, studying and working in this area – whether you use the internet for personal, educational or business use.

Broadband benefits include:

‘Always on ’internet access up to 10 times faster than a normal dial up

The freedom to surf and use the phone at the same time on the same line

Fast download of large files such as digital photos, multimedia, software, etc.

Vote now and bring broadband here.

Registering your genuine interest in ordering broadband will help determine if our local BT exchange will be upgraded for ADSL broadband.

Details are available on the website

www.01359broadband.co.uk

You can register your interest with any broadband provider or, if you prefer, simply request the 01359broadband.co.uk site to do this for you by choosing the option " Please register for me" and then filling in your details.

Remember you don't commit to anything by filling in this form. All you are doing is saying you'd be interested in broadband if it were available. Once our local exchange is broadband enabled you'll be able to choose who you sign up with.

Please visit **www.01359broadband.co.uk** and register your interest today - and urge your neighbours to do the same.

If you would like to help in the local action to obtain broadband or get a copy of this poster to forward to friends, please e-mail:

broadband@elmswell.info

It is also hoped that all our local organisations and businesses in Elmswell and Woolpit will actively lend their support to the broadband campaign and spread this message as widely as possible.

Yours sincerely

Your local broadband supporters
